PROFESSIONAL EXPERIENCE

Web Content Engineer

miniOrange 

07/2022 – 11/2022

Pune, India

- Developed a highly-performant, scalable, and responsive **React** app (Xecuredesk).
- Worked with **Redux** and other state management tools to manage application state.
- Created wireframes, prototypes, and high-fidelity mockups for company products using **Figma**.
- Designed wireframes for WordPress plugins, and translated them into responsive web pages using front-end technologies such as **HTML**, **SCSS**, **jQuery**, and **JavaScript**.
- Collaborated with the design and product team to deliver high-quality, user-friendly web solutions.
- Worked with **Git**, and **BitBucket** for version control and code management.
- Managed and tested RESTful Apis using **Postman**.
- Troubleshoot and debugged technical issues to optimize product sites with **chrome devTools**.

PROJECTS

Snap-Shots

- Developed CRUD web application using the MERN stack.
- Implemented user authentication with email verification and authorization using JWT.
- Designed and implemented RESTful APIs to integrate the front-end and back-end.
- Utilized MongoDB for data storage and retrieval.

Private Chat App

- Built a full-stack web application using Node.js, Express, and React.
- Implemented real-time communication using WebSockets.
- Designed and implemented RESTful APIs for data integration.
- Utilized Git for version control and code management.

Agro-Consultant

- Developed a machine learning-based website that recommends the best crop to grow, fertilizers to use, and the diseases caught by your crops.
- Created an easy-to-use interface that allows users to access features quickly and easily.
- Incorporated real-time weather data, soil data, and other environmental factors to improve the accuracy of recommendations.

EDUCATION

B.E. Computer

2018 – 2022

P.E.S. Modern College of Engineering, Pune
